In order to build such a website complete web support need to be provided. A complete and efficient web page. Tech: HTML, CSS, JavaScript, PHP, MySql (August - 2019)

COURSE-WORK (UNDERGRADUATE

- **Object oriented Programming Language:**:
- **Database managment system:**:
- **Data structure and Algorithms:**:
- **Operating system:**:
- **Web Development:**:
- **Networking:**:
- **Artificial intelligence:**:

CERTIFICATION

- Online training on **ReactJS** conducted by CipherSchools in (Jan-Feb 2022) in this course, I have learnt how to a build single-page applications and create reusable UI components.

- Training on **React and Redux** conducted by CipherSchools in (June-July 2022) in this course, I have learnt official UI bindings for react Application, kept up-to-date with any API changes.

- E-Box Online Certification Course on "**Object Oriented Programming using C++ - Internship**" during the period (Jun 2021 - Jul 2021) In this course, I have learnt various type of Like Basics of C++ Programming / Control Structures, Array, Strings, Functions and Pointers, Recursion, Classes and Objects, Collections, classes Object, Inheritance, Abstract classes Interface, Operator Overloading, Exception Handling, Templates, File Handling etc.

- **Introduction to Cloud Computing** an online non-credit course authorized by IBM and offered through Coursera. (Oct 31, 2021)

HOBBIES

- Swimming
- Listening Music
- Playing Video Game
